

3-3-3 Combo – This is a two-person event. The first three holes are best ball; the next three holes are scramble and the final three holes are alternate shot. In alternate shot both golfers on the team hit drives and then select one of the driven balls to play the hole. The golfer whose drive was not chosen hits the second shot, and then the two players alternate shots until the hole is finished. Each alternate shot hole is independent– on next hole after each player hits their drive, select the ball and start alternating again.
